SUMMARY

Product Manager with 10+ years in banking digital transformation. Skilled in value-driven delivery, stakeholder alignment, and structured project governance. Strong ability to simplify complex workflows, coordinate cross-functional teams, and turn strategic goals into measurable results.

WORK EXPERIENCE

Julius Baer | Zurich | 10/2024-03/2025 | 6 months
Consultant (contractor)

- Supported the bank's core-platform transformation (ROC) by analyzing, clarifying, and structuring business and technical OMS capabilities across upstream and downstream systems.
- Ensured alignment between business priorities, architectural constraints, and delivery roadmap.

Credit Suisse – UBS | Zurich | 12/2015 - 10/2024 | 9 years
Product Manager / Business Analyst – Funds applications

- Led modernization of the full funds trade lifecycle, achieving a 99% STP rate including payments.
- Coordinated the development of new Instrument Manager application reducing Time to Market by 300%.
- Managed multiple international stakeholders to drive expansion of digital connectivity (FIX, SWIFT) with clients, fund administrators, and custodians.
- Facilitated and led workshops to define order statuses, exception handling, and lifecycle events, ensuring consistency across business and IT.
- Coordinated roadmap alignment for instrument creation, order routing, and cut-off time management modules.
- Translated business needs into actionable user stories, acceptance criteria, KPIs, and delivery requirements.
- Strengthened continuous delivery by improving automated test coverage for UAT and SIT.

Société Générale | Zurich | 05/2014 – 11/2015 | 1.5 years
Business Analyst - FX & Money Market flow

- Designed screen flows for FX and Money Market order entries, including pre-trade validation and MIFID checks.
- Specified and tested a new FIX interface between Temenos Triple'A and market gateway for FX Request For Quote (RFQ) order flow.
- Defined and executed test cases, identified, analyzed, and reported bugs.

Horizon Software | Paris | 10/2009 – 04/2014 | 4.5 years
Account Manager - options market making

- Managed derivatives (options, warrants) trading and market making modules from specifications, testing to production deliveries for 2 major banks.

AlternativeSoft | London | 01/2008 – 08/2009 | 1.5 years
Account Manager - Hedge Funds Clients

- Learned and explained to prospective clients risk metrics embedded models

Arolys | Paris | 06/2004 – 08/2006 | 2 years
Junior Consultant in design-to-cost optimization (industrial clients)
